

Introducing **ATLAS™ QUARTETTE**

The New 4-Cell, 1-Slot Atlas™ Brick

A Reinforcement Brick that Creates the 8" Brick Look
with a 16" Long Brick.

Nothing Else Stacks Up

QUARTETTE – A NEW 4-CELL, SINGLE-SCORED BRICK

ATLAS™ QUARTETTE

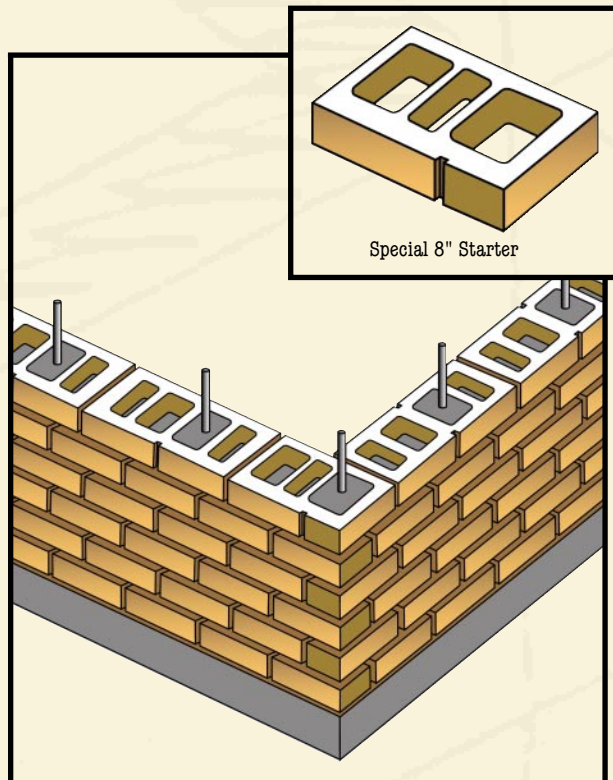

This is the answer to cost-conscious developers who want the advantages of a reinforceable structural brick and the smaller “modular brick in running bond” appearance.

The 4 cells are sized and spaced to be laid in quarter bond to allow vertical reinforcing to be placed at intervals of 16, 32, and 48 inches on center. The **QUARTETTE** is ideal for load bearing and curtainwall applications.

The unique special starter unit maintains the bond pattern around corners, at jambs and when beginning new sections of walls.

BENEFITS

- Reinforceable
- Increased Productivity
- Reduced Wall Costs
- “Modular” Appearance
- Low Maintenance
- 1-4 Hours Fire Resistant
- Seismic and Wind Resistant

NOMINAL SIZE	ACTUAL SIZE	WEIGHT (LBS)
8 x 3 x 16	7 ⁹ / ₁₆ x 2 ⁹ / ₁₆ x 15 ⁹ / ₁₆	12
8 x 4 x 16	7 ⁹ / ₁₆ x 3 ⁹ / ₁₆ x 15 ⁹ / ₁₆	16.5

Available in all standard colors. Atlas bricks conform to ASTM C652, and CSA A82.8 specifications. Available at Interstate Brick only.
