

LEED Regional Materials – Maximum 2 of 110 possible points

Is your project within 500 miles of the plant?

Congratulations, you are 1%-2% on your way to meeting the threshold for MR c5.1-c5.2

Is your project more than 500 miles from the plant?

Don't worry. Consult with any of our LEED APs to learn why brick should not be factored into MR c5 and how Interstate Brick can contribute to many other credits, including all four ID c1 options. There are several reasons why we ship brick over 2,000 miles every day - even to projects seeking LEED certification.
